1	PRESENTATION						
1.1	The official language for all documents associated with SPP is Spanish. In the case of any doubt arising from a translated version, the Spanish document shall be used as the only valid version.	Informative	X	X	X	X	X
1.2	This document cancels and replaces: General Standard of SPP Version 14.0 2021-02-05	Informative	X	X	X	X	X
1.3	The most recent changes made to this document were approved by <i>SPP Global's</i> Standards' Committee on August 23, 2018 and ratified by the <i>SPP Global's</i> Board on September 28, 2018. If you would like to see the changes between this new edition and the previous one, please consult the chart listing the changes, presented at the end of this document, and also including the date upon which this current document enters into effect.	Informative	X	X	X	X	X
1.4	SPP is a certification and registration system for products from Small Producers' Organizations. It is an initiative created by CLAC in 2006 (Latin American and Caribbean Network of Small Fair Trade Producers) and currently is property of <i>SPP Global</i> .	Informative	X	X	X	X	X
1.5	The composition and functioning of <i>SPP Global's</i> Standards and Procedures Committee are pursuant to its Terms of Reference, which are public.	Informative	X	X	X	X	X
1.6	This Standard was approved by SPP Global's Standards Committee and Board of Directors, based on the procedures established for defining the Standards for SPP. These procedures are public, and include periodic reviews and consultations. Suggestions for improving the standards may be submitted using the appropriate form.	Informative	X	X	X	X	X
1.7	According to <i>SPP Global's</i> procedures for defining standards, particular criteria may be authorized for specific countries or specific products. These particular criteria are published in the List of Specific Parameters, an Annex to this General Standard. It is important to check to see if there are special parameters for the products you are interested in.	Informative	X	X	X	X	X
1.8	For some products, such as Crafts and herbs, there are obligatory Specific Standards, which should be consulted and applied in place of this General Standard. It is important to check to see if there is a Specific Standard for the products you are interested in.	Informative	X	X	X	X	X

#	Contents	Clasification	SPO	C-SPO	BUY	INT	MAQ
1.9	To complement the General Standard of SPP, SPP Global has established a Code of Conduct, which must be signed by Small Producers' Organizations, Buyers, Collective Trading Companies owned by Small Producers' Organizations, Intermediaries, Maquila Companies and Certification Entities. Failure to comply with the Code of Conduct may result in the filing of an objection, complaint or appeal, which will be addressed according to SPP Global's Dissents Procedures, and may lead to suspension or decertification, regardless of compliance with this General Standard.	Informative	X	X	X	X	X
1.10	Section two of this document lists the annexes and references to other documents in SPP system that are important for understanding these standards. Section three explains the vocabulary used in these standards. Section four describes the criteria that must be met by Small Producers' Organizations in order to be certified under SPP system. Section five presents the criteria that must be met by Buyers, Collective Trading Companies owned by Small Producers' Organizations, Intermediaries and/or Maquila Companies in order to be registered under SPP system. And section six establishes the criteria that must be respected in commercial dealings between the parties involved in SPP system.	Informative	X	X	X	X	X
1.11	This document consists of eight columns. The number of the paragraph or criteria appears in the first column. The explanatory text or criteria is specified in the second column. The classification of the text or criteria appears in the third column. Specifically, texts that are exclusively informative in nature are marked as "Informative" in this column. The other three classifications (Critical Criteria, Minimum Criteria and Continuous Improvement Criteria) are explained in section three, which specifies the vocabulary used in these standards. The fourth through eighth columns specify the type of stakeholder intervening in the commercial and processing chain for products of certified Small Producers' Organization, for which the informative text or criteria is applicable. The options are SPO (Small Producers' Organizations), C-SPO (Collective Trading Companies owned by Small Producers' Organizations), BUY (Buyers), Intermediaries (INT) and Maquila Companies (MAQ) (see definitions in chapter 3).	Informative	X	X	X	X	X
1.12	These standards are applicable to agricultural and beekeeping products from small producers' organizations in Latin America and the Caribbean, and developing countries in Africa and Asia to be sold in countries authorized by <i>SPP Global</i> . This General Standard does not apply to Crafts and Herbs, since the latter have their own Specific Standards. Other applications may be presented to <i>SPP Global</i> for consideration.	Informative	X	X	X	X	X

#	Contents	Clasificación	SPO	C-SPO	BUY	INT	MAQ
1.13	All entities subject to evaluation by this Standard must in all cases comply 100% with the Critical, Minimum and Continuous Improvement Criteria that are applicable, according to the indications in columns 4-8, independently of the procedures applied by the Certification Entities.	Informative	X	X	X	X	X
1.14	Compliance with the Critical, Minimum and Continuous Improvement Criteria will be verified through the Certification and Registration procedures published by <i>SPP Global</i> , or through equivalent procedures of authorized Certification Entities.	Informative	X	X	X	X	X
1.15	Since there are many ways in which the criteria in this Standard may be fulfilled, the way in which each particular evaluatee fulfills these criteria is defined and demonstrated by that evaluatee, however it must follow the Standard's logic and must fit within the framework of the Declaration of Principles and Values of SPP.	Informative	X	X	X	X	X
1.16	When a Small Producers' Organization is at the second, third or fourth level, it must select the level at which it wishes to receive certification, depending on its particular circumstances, and based on its own internal decision. It must be understood, however, that all the criteria for SPOs will be applied to the entire organization selected for certification.	Informative	X	X	X	X	X
1.17	There are "Optional Complementary Criteria" that complement the criteria in this General Standard, allowing small producers' organizations and Final Buyers to distinguish themselves in the market through "Optional Complementary Qualifiers," in line with their particular needs. The list of the approved Optional Complementary Criteria is an annex to this General Standard. The approval of new criteria and qualifiers is subject to the Procedures for Defining Standards.	Informative	X	X	X	X	X
1.18	The annexes specified in Chapter 2 of this General Standard are obligatory and are considered as part of it. The references listed in the same chapter consists of documents that are part of the SPP system and must be considered for better understanding these standard. Some criteria of the General Standard reference directly a document or annex in particular.	Informative	X	X	X	X	X

3	VOCABULARY						
3.1	Certification: A systematic, independent process through which <i>SPP Global</i> and authorized Certification Entities evaluate and verify compliance by Small Producers' Organizations with this General Standard. The ultimate responsibility for compliance with standards rests with each organization certified.	Informative	X	X	X	X	X
3.2	Final Buyer (BUY): A company that buys products certified with SPP to place them on the final consumer market under its own name or trademark, and that complies with the respective criteria in the General Standard of SPP.	Informative	X	X	X	X	X
3.3	Collective Trading Companies owned by Small Producers' Organizations (C-SPO): Companies that are majority-owned by two or more Small Producers' Organizations certified with SPP, and that trade products certified with SPP to place them on the market.	Informative	X	X	X	X	X
3.4	Standards and Procedures Committee: An internal SPP Global entity responsible for developing standards and reviewing procedures for SPP, with the aim of guaranteeing that the standards and procedures contribute to fulfilling SPP Global's Mission in relation to the needs and proposals of Small Producers' Organizations.	Informative	X	X	X	X	X
3.5	Board of Directors: A SPP Global entity with overall leadership responsibility, specifically for approving standards for SPP, and approving procedures for defining standards and the Terms of Reference for the Standards Committee.	Informative	X	X	X	X	X
3.6	Critical Criteria: The criteria for these standards that are qualified as critical are mandatory and will be evaluated in all cases, including as part of desktop evaluations. Failure to comply with these criteria will directly impact certification and registration results.	Informative	X	X	X	X	X
3.7	Minimum Criteria: The minimum criteria are also mandatory, but will only be evaluated through assessments that include a field visit. Failure to comply with these criteria will directly impact certification and registration results.	Informative	X	X	X	X	X

#	Contents	Clasification	SPO	C-SPO	BUY	INT	MAQ
3.8	Continuous Improvement Criteria: These are criteria that will be evaluated in the framework of possibilities for compliance in a particular context and will only be evaluated through assessments that include a field visit. Unjustified failure to comply will impact certification and registration results.	Informative	X	X	X	X	X
3.9	SPP Global: Small producers organization	Informative	X	X	X	X	X
3.10	Intermediaries (INT): Trading companies that buy and sell SPP products, and do not place these products on the final consumer market under their own name or trademark.	Informative	X	X	X	X	X
3.11	Maquila Companies (MAQ): Service providers that intervene in the trading or processing of products, but do not buy or sell these products.	Informative	X	X	X	X	X
3.12	Means of production: the land, tools, machinery, equipment, supplies, labor force and working capital engaged in production.	Informative	X	X	X	X	X
3.13	Certification Entities: SPP Global and any other certification entity approved by SPP Global in accordance with the respective procedures.	Informative	X	X	X	X	X
3.14	Small Producers' Organization: A Small Producers' Organization that is presumed or proven to meet the criteria for Small Producers' Organizations, as specified in the General Standard of SPP. When a trading company is part of the structure of a single Small Producers' Organization that is certified with SPP, it is considered to be part of the Small Producers' Organization.	Informative	X	X	X	X	X
3.15	Registration: A systematic, independent process through which SPP Global and authorized certification entities evaluate and verify compliance by Buyers, Collective Trading Companies owned by Small Producers' Organizations, Intermediaries and Maquila Companies with this General Standard. The ultimate responsibility for compliance with standards rests with each registered buyer.	Informative	X	X	X	X	X
3.16	Production Unit: The means of production used by a producer in the framework of this Standard.	Informative	X	X	X	X	X
3.17	Collective Production Unit: The means of production used by a Small Producers' Organization that collectively owns a plantation.	Informative	X	X	X	X	X
3.18	Liquid Vehicle: a liquid substance added to a finished product in order to give it sufficient fluidity for its final consumption.	Informative	X	X	X	X	X
3.19	Main Ingredient: substance directly associated with the essential characteristics of the final product.	Informative	X	X	X	X	X
3.20	Secondary Ingredient: substance not directly associated with the essential characteristics of the final product, but added to a finished product in order to make it suitable for its final consumption.	Informative	X	X	X	X	X
4	CRITERIA FOR SMALL PRODUCERS' ORGANIZATIONS						
4.1	SMALL PRODUCERS' ORGANIZATIONS						
4.1.1	All the producers in the Small Producers' Organization meet each of the following criteria (a, b, c and d):	Critical Criterion	X				

#	Contents	Classification	SPO	C-SPO	BUY	INT	MAQ
4.1.1.a.1	1. For each of the products to be included in the certification of the Small Producers' Organization, the size of the production unit does not exceed the following dimensions:	Critical Criterion	X				
4.1.1.a.1.i	i. The production units of at least 85% of producers do not exceed the following unit sizes:	Critical Criterion	X				
4.1.1.a.1.i.A	A. Agriculture: 15 hectares in production	Critical Criterion	X				
4.1.1.a.1.i.B	B. Indoor agriculture: 1 hectare in production	Critical Criterion	X				
4.1.1.a.1.i.C	C. Beekeeping: 500 hives in production	Critical Criterion	X				
4.1.1.a.1.ii	ii. A maximum of 15% of producers may have up to 2 times the parameters defined in i. A, B and C.	Critical Criterion	X				
4.1.1.a.1.iii	iii. If there are some isolated producers who exceed these parameters of size, a request for a special permission must be submitted to <i>SPP Global</i> , with proper justification, so that the organization may eventually be subject of certification.	Critical Criterion	X				
4.1.1.a.1.iv	iv. Variations of less than 1% in the percentages of subsections i and ii are acceptable.	Critical Criterion					
4.1.1.a.2	2. For other categories of products, <i>SPP Global</i> should be consulted with, regarding the maximum sizes of production units.	Informative	X				
4.1.1.a.3	3. There are specific parameters for certain products and/or countries, which are included in the annex to the General Standard called "Specific Parameter List".	Critical Criterion	X				
4.1.1.a.4	4. In the case where the local parameters to define the small production (including variants such as small agroforestry production and harvesting) are different from what states this General Standard, a request can be presented to <i>SPP Global</i> to set the specific parameter, according to the procedures for the definition standards.	Informative	X				
4.1.1.a.5	5. Not considered cases are subject to review and approval by <i>SPP Global</i> 's Standards and Procedures Committee and Board of Directors.	Critical Criterion	X				
4.1.1.b	The means of production used by producers cannot be owned by a Buyer, as defined in this Standard.	Critical Criterion	X				
4.1.1.c	Producers operate their Production Units for the products to be included in the certification mostly with their own labor force, family labor or through community labor exchanges. Of the average amount of the wages for hired labor (outside the harvest season), half or less may correspond to third parties. Over half of the total labor force may be hired in the following cases:	Critical Criterion	X				
4.1.1.c.i	i. Products requiring intensive labor (e.g., fruit harvested ongoing, such as bananas).	Critical Criterion	X				
4.1.1.c.ii	ii. Producers over 60 years old.	Critical Criterion	X				
4.1.1.c.iii	iii. Producers with disabilities who cannot carry out productive activities.	Critical Criterion	X				

#	Contents	Clasification	SPO	C-SPO	BUY	INT	MAQ
4.1.1.c.iv	iv. Producers with illnesses that prevent carrying out production work.	Critical Criterion	X				
4.1.1.c.v	v. Producers without a sufficient family labor force available to carry out the work in the Production Unit.	Critical Criterion	X				
4.1.1.c.vi	vi. Producers who hold a position in the organization or on a committee in the Small Producers' Organization, preventing them from attending to their production work.	Critical Criterion	X				
4.1.1.c.vii	vii. Producers who are pregnant.	Critical Criterion	X				
4.1.1.d	Producers are personally involved in productive activities and in the activities of the Small Producers' Organization, except when a health condition prevents such involvement.	Critical Criterion	X				
4.1.2	In the case of Collective Production Units, the size of an entire unit depends on the number of producers in the organization owning a Collective Production Unit, considering the criteria described above for individual Production Units as a proportional part corresponding to each member.	Critical Criterion	X				
4.1.3	In the case of a second or third-level Small Producers' Organization seeking certification under this Standard, all of its members must be Small Producers' Organizations, as defined in this document, and for the purposes of this Standard, will be considered as part of the same organization.	Critical Criterion	X				
4.1.4	All the products sold under SPP come from members of Small Producers' Organizations. The products of non-members will only be allowed in the case of other groups certified under SPP and supported by a previous agreement between the Small Producers' Organizations that clearly defines the cost and characteristics of the marketing services agreed upon. Contracts and invoices of Small Producers' Organizations for sales to Buyers must specify the name or names of the Small Producers' Organization(s) that have produced the products.	Minimum Criterion	X				
4.2	ORGANIZATIONAL CRITERIA						
4.2.1	Each Small Producers' Organization is legally incorporated and has a current listing of all its members, indicating minimally:	Critical Criterion	X				
4.2.1.a	a. Names of producers	Critical Criterion	X				
4.2.1.b	b. Name of Locality	Critical Criterion	X				
4.2.1.c	c. Size of Production Unit, by product to be included in the certification	Critical Criterion	X				
4.2.1.d	d. Annual production for each product to be included in the certification	Critical Criterion	X				
4.2.1.e	e. Should be validated both internally and externally.	Critical Criterion	X				

#	Contents	Clasification	SPO	C-SPO	BUY	INT	MAQ
4.2.2	The highest authority of any Small Producers' Organization is its General Assembly (having a local name), which meets at least once a year in ordinary or extraordinary sessions, according to the statutes of the organization in question. This General Assembly is made up of all the small producers of the organization, either directly or through an internally agreed representation system. Only the small producers or their representatives have the right to vote in this General Assembly.	Critical Criterion	X				
4.2.3	The organization has a Board of Directors (having a locally given name) made up exclusively of small producers, which is in charge of monitoring the agreements of the General Assembly and supervising the operational functioning of the Small Producers' Organization in question. The Board of Directors reports to the General Assembly of the Small Producers' Organization at least annually on the results of its work and the status of the organization, helped by the existing operational team.	Critical Criterion	X				
4.2.4	The decision-making processes of the Small Producers Organization, at the level of its Assembly or its Board of Directors or equivalent, do not depend, in a regulated and written manner on any official document (own or from third parties), on the decision-making of any instance external to it, unless it is to comply with legal obligations.	Critical Criterion	X				
4.2.5	The Small Producers' Organization does not discriminate against its members nor employees on the basis of gender, political orientation, social class, culture, clothing, ethnicity, language, religion, sexual preference, age or physical or mental abilities. Additionally: I. No discriminatory practices II. No pregnancy tests, HIV tests, etc. are administered during the recruitment of workers III. Physical punishment and sexual harassment are forbidden IV. No forced labor	Minimum Criterion	X				
4.2.6	The organization's structure and mechanisms are designed in order to ensure that decision-making and systems for accounting and accountability are based on democracy, participation and transparency, and are being implemented under the organization's statutes and/or regulations. If there are legal regulations concerning the legal composition of the membership of the Small Producers' Organization, imposed by local or national authorities, they must be specified.	Continuous Improvement Criterion	X				
4.2.7	The documents describing the decision-making process must be accessible to all members of the organization.	Continuous Improvement Criterion	X				

#	Contents	Clasification	SPO	C-SPO	BUY	INT	MAQ
4.2.8	Activities that promote equitable participation by men and women in activities, processes, bodies and decision-making processes are carried out.	Continuous Improvement Criterion					
4.2.9	To the extent of possibilities and availability of resources, activities and/or advocacy efforts focused on addressing specific issues for women and minority groups are promoted.	Continuous Improvement Criterion	X				
4.2.10	In acknowledgement of the UN Declaration on the Rights of Indigenous Peoples (Resolution 61/295), it is established that variations in the traditional organizational models of indigenous groups that do not meet all the organizational criteria may be presented in a request for exception to <i>SPP Global</i> , with a description of their organizational structure and based on the SPP's Declaration of Principles and Values.	Minimum Criterion	X				
4.2.11	Within a Small Producers' Organization, the distribution of eventual returns resulting from commercial operation must be equitable, in accordance with the volume of product that each producer contributes to the total amount sold.	Critical Criterion	X				
4.2.11.a	In the event that there are remunerations for items that are not directly related to the volume sold, criteria of equal rights must be applied.	Critical Criterion	X				
4.2.11.b	In the case of a company with shareholders, the distribution of dividends should at no time be based on the number of shares of the different members of the organization, except in the case in which all producer members have the same number of shares at the time of distribution.	Critical Criterion	X				
4.3	PRODUCTION CRITERIA						
4.3.1	The Small Producers' Organization has methods and records that show the flow of products from the land plot to the warehouse, and the sale of products by the Small Producers' Organization.	Critical Criterion	X				
4.3.2	Internal records related to the flow of products are managed by the Small Producers' Organization and can be verified at any time. When processes are outsourced, they are supervised by the Small Producers' Organization, under an established agreement or contract.	Critical Criterion	X				
4.3.3	If a Small Producers' Organization subcontracts services required to transform, process or pack and label products before sale, it must notify its Certification Entity and SPP Global so that this is considered for evaluation processes and in our lists of SPP maquila companies.	Minimum Criterion	X				
4.3.4	The systems and production activities of the members of the Small Producers' Organization help to conserve natural resources and the health of producers and consumers.	Continuous Improvement Criterion	X				
4.3.5	The Small Producers' Organization has mechanisms for estimating the harvests of the various commercial products.	Continuous Improvement Criterion	X				

#	Contents	Clasification	SPO	C-SPO	BUY	INT	MAQ
4.4	MANAGEMENT SYSTEM CRITERIA						
4.4.1	The Small Producers' Organization has an internal control system covering the different aspects of this General Standard.	Continuous Improvement Criterion	X				
4.4.2	To the extent of possibilities and availability of resources, mechanisms for training are developed to facilitate the process of building capacities in the productive, technical, social, organizational, commercial and public impact areas.	Continuous Improvement Criterion	X				
4.5	COMMERCIAL CRITERIA						
4.5.1	The Small Producers' Organization maintains commercial records of transactions both for the domestic market and for export.	Critical Criterion	X				
4.5.2	The Small Producers' Organization has policies adopted by the General Assembly or its equivalent to define the way in which prices and mechanisms for payments to members are calculated.	Minimum Criterion	X				
4.5.3	The Small Producers' Organization has fact sheets for their final products, minimally establishing the varieties and qualities offered.	Continuous Improvement Criterion	X				
4.5.4	Organizations should diversify, as far as possible, their sales of raw materials or finished products with different customers	Continuous Improvement Criterion	X				
4.6	STRENGTHENING THE SMALL PRODUCERS' SECTOR						
4.6.1	If the Small Producers' Organization does not have the capacity for exporting or trading on its own, it should sell its products through other Small Producers' Organizations certified with SPP. If this is not feasible, it must present SPP Global with a request for temporary permission with due justification provided.	Minimum Criterion	x				
4.6.2	For the product to be sold with SPP, the Small Producers' Organizations may only use the services of Intermediaries or Maquila Companies that are controlled by SPP system.	Minimum Criterion	x				
4.6.3	The Small Producers' Organization, to the extent of its capacities and resources, promotes: I. Generation of local sources of employment. II. Exchange of products for local markets and consumption.	Continuous Improvement Criterion	x				
4.6.4	Small Producers' Organizations must, so far as possible, make known that they are SPP certified via their Website or Social Media (or any other equivalent means) and/or general presentations, if they use such means.	Minimum Criterion	x				
4.6.5	Small Producers' Organizations must, so far as possible, incorporate SPP in their actions and materials regarding internal/external communication, promotion and advertising.	Continuous Improvement Criterion	x				
4.7	ENVIRONMENT AND HUMAN HEALTH CRITERIA						
4.7.1	The Small Producers' Organization does not allow its members to use products appearing on the List of Prohibited Products established for SPP (and annexed to this Standard) in the production of products included in the certification.	Critical Criterion	x				

#	Contents	Clasification	SPO	C-SPO	BUY	INT	MAQ
4.7.2	The Small Producers' Organization assumes the responsibility to not use products banned by official regulations established in the production area or in the region where products will be sold.	Minimum Criterion	x				
4.7.3	The Small Producers' Organization prohibits among its members the use of products harmful to the environment and human health in all its production units, regardless of whether or not products are included in the certification. The List of Prohibited Products established for SPP and official regulations in the production area or in the region where products will be sold will be used as a reference for identifying these harmful products.	Minimum Criterion	x				
4.7.4	Genetically modified organisms (GMOs) or inputs developed from such organisms will not be used.	Minimum Criterion	x				
4.7.5	The Small Producers' Organization demonstrates, in line with its possibilities a genuine commitment to care for, respect, conserve, and where applicable, restore the environment and fight against and mitigate change, through strategies focused on: I. Conservation of biodiversity (flora and fauna) II. Caring for forests III. Soil conservation and fighting erosion IV. Care in water management and protection of groundwater V. Carbon capture capacity	Continuous Improvement Criterion	x				
4.7.7	The by-products resulting from the processing of the Organization's products are processed without causing damage to health or the environment.	Minimum Criterion	x				
4.7.8	The Small Producers' Organization makes efforts to gradually convert, to the extent of its possibilities, all of its production to organic or similar production with some type of external recognition.	Continuous Improvement Criterion	x				
4.7.9	To be sold under SPP, products must have an organic or similar equivalent certification recognized by SPP Global and that it is recognized by the market of the country where it will finally be sold. (see appendix "List of de organic and similar certifications recognized by SPP Global"). Note: Criteria 4.7.1 to 4.7.8 of this standard must not be evaluated in the case of SPOs that have an organic certificate.	Critical Criterion	x				
4.7.9.1	The ecological part of the General Standard (and Specific Standards) is expected to be revised to meet strict criteria for ecological and organic production, environmental management and health care.	Informative Criterion	x				
4.7.9.2	When this new requisite 4.7.9 took effect (2018-10-01), SPP certified Small Producers' Organizations which previously did not have an organic certification, are exempt from compliance with the requisite, but must comply with all the environmental criteria of the present General Standard, as well as the eventually revised version mentioned in criterion 4.7.9.1	Informative Criterion	x				

#	Contents	Classification	SPO	C-SPO	BUY	INT	MAQ
4.7.10	Organic certification granted by the Approved Certification Entity shall be the property of the Small Producer Organization, as shall the Internal Control System; it shall not belong to any marketing entity or to individual members	Minimum Criterion	x				
4.8	CRITERIA FOR DIGNIFIED LIVING						
4.8.1	The Small Producers' Organization promotes, among its members, to the extent of its capacities and available resources, advances in the following diverse aspects of dignified living in one's environment, such as: I. Food Security II. Nutritious, healthy food III. Adequate health and hygiene conditions IV. Housing that provides necessary protection V. Access to full, adequate education	Continuous Improvement Criterion	x				
4.8.2	The Small Producers' Organization demonstrates, to the extent of its capabilities and resources, that its activities promote an increase in the capacities of its members and the organization, in terms of taking ownership of the productive-commercial chain.	Continuous Improvement Criterion	x				
4.8.3	The Small Producers' Organization demonstrates, to the extent of its capabilities and resources, that its activities promote the level of knowledge and consciousness of its members, and assist the Small Producers' Organization and its members in influencing public policies and/or social movements in terms of strengthening concerning the organized Small Producers' sector, fair trade and sustainable production.	Continuous Improvement Criterion	x				
4.9	LABOR CRITERIA						
4.9.1	Small Producers' Organizations and their members do not hire boys or girls, respecting the corresponding local regulations, as well as the UN Convention on the Rights of the Child (1989). Close family members may participate in the family's productive activities as part of growing up as close family members of producers (for example, sons or daughters, nieces or nephews and grandchildren), as long as this contributes to and does not negatively affect or jeopardize their physical, or mental and ethical development and/or well-being, and/or their educational development.	Minimum Criterion	x				
4.9.2	If the Small Producers' Organization hires temporary, migrant or permanent employees, it complies with existing labor laws, respecting the various international conventions of the ILO that define workers' rights.	Minimum Criterion	x				

#	Contents	Classification	SPO	C-SPO	BUY	INT	MAQ
4.9.3	The Small Producers' Organization will work, to the extent of its possibilities, to promote encourage its members to provide their employees with appropriate, dignified and equal working conditions for its members and its employees, when applicable. The Small Producers' Organization will work, to the extent of its possibilities, to promote encourage its members and their employees with appropriate, dignified and equal working conditions for its members and employees of its members, when applicable.	Continuous Improvement Criterion	x				
4.9.4	SPP Small Producers' Organizations that have more than 25 employees must allow employees to create an employee committee and, if this is the case, have at least one annual meeting between the Board of Directors (with the customary name) of the organization and the members of this committee and / or its elected representatives.	Minimum Criterion	x				
4.9.5	The equipment or machinery used by the Small Producers' Organization that involves any potential risk to the safety of producers, workers or third parties is handled with appropriate care and with proper safety equipment.	Minimum Criterion	x				
5	CRITERIA FOR REGISTRATION OF BUYERS, COLLECTIVE TRADING COMPANIES OWNED BY SMALL PRODUCERS' ORGANIZATIONS, INTERMEDIARIES AND MAQUILA COMPANIES						
5.1	GENERAL CONSIDERATIONS						
5.1.1	Must be legally constituted and have access to the necessary physical, administrative, organizational and financial infrastructure to fulfill the purchase and sale contracts established under SPP system.	Critical Criterion		X	X	X	X
5.1.2	Must have an administrative and accounting system that allows for the clear identification of commercial operations conducted under SPP system.	Critical Criterion		X	X	X	X
5.1.3	A Buyer or Intermediary (as defined in this Standard) may not be registered or apply to be registered as such under this Standard and at the same time function as a producer or owner of a company producing the same product that it buys from certified Small Producers' Organizations. This criterion does not apply to Collective Trading Companies owned by Small Producers' Organizations. If the application of this criterion is not feasible, a request for temporary permission must be presented to <i>SPP Global</i> with due justification provided.	Critical Criterion			X	X	

#	Contents	Clasification	SPO	C-SPO	BUY	INT	MAQ
5.1.4	Registered intermediaries may not engage in hoarding or speculation practices, or in other words, they may not purchase products certified under SPP without having Buyers anticipated for this acquisition (SPP registered Buyers or Buyers undergoing an SPP registration process). Only when the volume of the minimum unit of importation or the purchase of a product is greater than the existing demand is there justification for the purchase without having the destination identified for the entire volume of the product	Critical Criterion			X	X	X
5.1.5	SPP Buyers must, so far as possible, make known that they are registered with SPP via their Website or Social Media (or any other equivalent means) and/or general presentations, if they use such means.	Minimum Criterion			X		
5.1.6	SPP Buyers must, so far as possible, incorporate SPP in their actions and materials regarding internal/external communication, promotion and advertising.	Continuous Improvement Criterion			X		
5.2	COMMITMENT TO PROMOTING THE LOCAL ECONOMY						
5.2.1	Must buy products from the Small Producers' Organization in the most advanced stage of processing that the Small Producers' Organization is able to adequately complete.	Continuous Improvement Criterion		X	X	X	
5.3	TRANSPARENCY AND TRACEABILITY						
5.3.1	Must provide information associated with its operations, including the location of its infrastructure, subsidiaries, and parent or associated companies; the Small Producers' Organizations supplying the products; and the products and product lines produced (whether or not they are to be included in the registration).	Critical Criterion		X	X	X	X
5.3.2	Must file the agreements and contracts established under SPP system.	Critical Criterion		X	X	X	X
5.3.3	Must have a system for recording purchases, processing and sales, to make it possible to physically trace the products processed, bought and/or sold under SPP.	Critical Criterion		X	X	X	X
5.3.4	Must publish in some way (for example, brochures, packaging or on website) what percentage of the total volume of purchases of the product in question comes from organizations certified by SPP, and if wished so, what percentage comes from small producers' organizations certified by other certification systems.	Continuous Improvement Criterion			X		
5.4	STRENGTHENING THE SMALL PRODUCERS' SECTOR						
5.4.1	If a Small Producers' Organization does not have the capacity to export or trade on its own, it must sell its products through the Small Producers' Organizations certified with SPP. If this is not feasible, a request for temporary permission must be presented to SPP Global with due justification provided.	Informative		X	X	X	X

#	Contents	Classification	SPO	C-SPO	BUY	INT	MAQ
5.4.2	If a Final Buyer subcontracts third-party services required to process products, it must notify both its Certification Entity and SPP Global so that this is considered for evaluation processes and in our lists of SPP maquila companies.	Informative			X		
5.4.3	All Buyers must commit to purchasing under SPP at least 5% of the total value of their purchases in the category of products they decided to buy under SPP (ex: Sugar, Cocoa, Coffee, Banana, Mango, Peanuts, Honey, Herbs or Handicraft) by the end of the second year of buying in the corresponding category of products.	Minimum Criterion			X		
5.4.4	After the second year of starting to buy in a certain product-category, Final Buyers must increase their SPP purchases by, at least, 5% each year in relation to their total purchases, in the corresponding category of products (see 5.4.3), until the SPP purchases reach a level of at least 25% of the total value of purchases in this category.	Continuous Improvement Criterion			X		
5.4.5	It will not be acceptable to decrease the percentage mentioned in the 5.4.3 and 5.4.4, of a Buyer's purchases under the SPP system because of changes in the total or partial ownership of its shares.	Minimum Criterion			X		
6	COMMERCIAL AGREEMENT BETWEEN SMALL PRODUCERS' ORGANIZATIONS, BUYERS, COLLECTIVE TRADING COMPANIES OWNED BY SMALL PRODUCERS' ORGANIZATIONS, INTERMEDIARIES AND MAQUILA COMPANIES						
6.1	CONTRACT						
6.1.1	A commercial contract will be signed in all cases, to specify the conditions of the purchase-sale, including at least the following: product type and quality, payment method and time period, delivery method and time period, logistics responsibilities, prices, possible certifications, and mechanisms for resolving disputes or complaints regarding quality or weight losses. The contract will recognize the mediation entities and procedures established for SPP, as well as the other usual specifications ("Incoterms" or international commercial terms) for the particular product and market.	Critical Criterion	X	X	X	X	X
6.1.2	Exclusive agreements between companies and SPP small producer organizations are not permitted.	Minimum Criterion	X	X	X	X	X
6.1.3	The Small Producers Organization and the Final Buyers must enter into contracts of at least 3 years.	Critical Criterion	X	X	X	X	X
6.1.3.a	Contracts must establish a mutual commitment in terms of prices, minimum volumes and product qualities, forms of payment, dates and possible Intermediaries. Likewise, they should mention the guidelines to follow in case of force majeure that are beyond the reach of those involved (natural disasters, major social conflicts, wars, pandemics, among others).	Critical Criterion	X	X	X	X	X

#	Contents	Classification	SPO	C-SPO	BUY	INT	MAQ
6.1.3.b	Contracts must establish the possibility of reviewing and adjusting commitments, at least once a year. In all cases, the prices of the contracts must be equal to or higher than the minimum SPP prices established in the current SPP Price List	Critical Criterion	X	X	X	X	X
6.1.3.c	Final Buyers and Small Producer Organizations may enter into complementary contracts that do not affect compliance with existing contracts. The new contracts that are signed must respect all the guidelines of section 6.1 "Contract"	Minimum Criterion	X				
6.1.4	In the event that commercial transactions are carried out through an Intermediary, as part of the annual negotiations between the SPO and the Final Buyer, any changes in the Intermediary that provides the service must be specified and mutually approved. Failure to comply with this criterion may terminate the agreed contract.	Critical Criterion	X	X	X	X	X
6.1.5	A periodic meeting (physical or virtual) must be held between the Small Producers Organization and the Final Buyers at least once a year, to evaluate the business relationship and confirm or eventually adjust the conditions of the current contract ; or to agree on the terms of the next contract.	Critical Criterion	X	X	X	X	X
6.2	SPP PRICES SYSTEM						
6.2.1	Definitions and explanations of the three components of SPP Price System	Informative	X	X	X	X	X
6.2.1.I	I. The SPP Base Price for a product is one that recognizes production costs, with the following characteristics:	Informative	X	X	X	X	X
6.2.1.I.a	a. The direct costs of production in terms of the means of production used.	Informative	X	X	X	X	X
6.2.1.I.b	b. A decent remuneration for work carried out, to allow producers, and when applicable, hired workers, a dignified life.	Informative	X	X	X	X	X
6.2.1.I.c	c. The costs of democratic self-management of the organization, with social and environmental responsibility.	Informative	X	X	X	X	X
6.2.1.I.d	d. The SPP Base Price reference price, in principle, is the FOB price and in the cases defined in the Procedure for Defining Standards, it is defined as Ex Works level. In the case of domestic markets, the Ex Works price is taken as a reference or, in case that a FOB price exists, costs associated with transfer to ports and costs related exclusively to exporting are deducted, in order to obtain the "Producers' Organization Warehouse" price, equivalent to an Ex Works Price.	Informative	X	X	X	X	X
6.2.1.I.e	e. The way in which quality differentials are to be handled is specified in Article 6.2.3	Informative	X	X	X	X	X
6.2.1.II	SPP products have a recognized organic certification: SPP Small Producers' Organizations are therefore entitled to payment of a positive Organic Recognition as a reward for the work and higher costs involved in organic production. This Organic Recognition must be part of the price to be paid to the SPO.	Informative	X	X	X	X	X

#	Contents	Clasification	SPO	C-SPO	BUY	INT	MAQ
6.2.1.III	Small Producers' Organizations are paid a SPPIncentive, and this must be specified in the purchase and sale agreement. SPP incentive is not negotiable in relation to quality differentials.	Informative	X	X	X	X	X
6.2.1.IV	The SPP Minimum Sustainable Price is the sum of the three components already mentioned (SPP Base Price, Organic Recognition and SPP Incentive)	Informative	X	X	X	X	X
6.2.1.V	The Final SPP Price is the price paid to the Small Producer's Organization, and consists of the sum of the SPP Minimum Sustainable Price plus the quality premium determined for the product in question based on existing references. or, failing that, based on negotiation between the parties.	Informative	X	X	X	X	X
6.2.1.N	Note: Prices, recognition and incentives for different products are stipulated in the Procedures for Defining Standards and Procedures.	Informative	X	X	X	X	X
6.2.2	Are required to pay Small Producers' Organizations at least the three components of a Sustainable Price: the Base Price, Organic Recognition and SPP Incentive. The amounts for these price components are reflected in the Sustainable Prices List (annexed to this Standard), which will be updated periodically, and prices for new products added.	Minimum Criterion	X	X	X	X	
6.2.3	When market prices (including any quality differentials due to origin or special characteristics) are above the SPP Base Price (as featured in the current List of SPP Prices), it is required to pay Small Producers' Organizations the market price (including quality differentials), plus the SPP Incentive and the SPP Organic Recognition. The quality differentials mentioned must always be positive.	Minimum Criterion	X	X	X	X	
6.2.4	When, for a SPPcertified product, a minimum price is also being paid under another certification system, the minimum price to be chosen must be equal to or greater than the current Base Price of SPP, as reflected in the current List of Sustainable Prices. When other payments similar to the Organic Recognition or SPPIncentive are made, as part of another certification, the Buyer or Intermediary does not need to make similar payments twice, but instead must pay the higher amount.	Minimum Criterion	X	X	X	X	

#	Contents	Clasification	SPO	C-SPO	BUY	INT	MAQ
6.2.5	Small Producers' Organizations use the resources from SPP Incentive to strengthen organizational, productive, commercial and business development and for activities that benefit the well-being of producers' families and their communities. Each organization must have general policies regarding the way in which these resources are handled, and these policies must be approved by the organization's General Assembly. These policies must define the entity within the organization that will make decisions regarding the concrete use of these resources, must establish the authority granted in this regard, and must establish the criteria to be used in decision-making, such as criteria specified for market conditions or for environmental catastrophes.	Minimum Criterion	x				
6.2.6	When the List of Sustainable Prices does not mention the product or by-product of the parties interested in being certified as a Small Producers' Organization, or interested in becoming registered as a Buyer, it is necessary to ask <i>SPP Global</i> to establish the prices or references to be applied.	Minimum Criterion	X	X	X	X	
6.2.7	SPP Global shall announce at least 4 months in advance the effective date of the new prices to all SPP players; unless there is an agreement between those SPP stakeholders involved in the product in question, to reduce the term of entry into force. <i>Note: This applies only to update prices that previously existed</i>	Informative	X	X	X	X	X
6.2.8	The maximum term for the entry into force of a price is 9 months; If there are sufficient arguments in the decisionmaking process, the case may be reviewed and the term of entry into force may be extended.	Informative	X	X	X	X	X
6.2.9	Contracts between the SPO and the SPP buyer must always respect the minimum SPP prices in force. In the event of concluding contracts that cover a period for which the entry into force of a new price has been announced, the deliveries established in the contract that are made before the entry into force of the new price will be paid with respect to the price in force and those made afterwards will be paid according to the new published price. <i>Note: By 'delivery' is understood the time defined by the contract and / or its established incoterms, with respect to the time of transfer of ownership and / or responsibility for the product from the seller to the buyer.</i>	Critical Criterion	X	X	X	X	X
6.2.9.a	a. In the event that a Final Purchaser and an SPO sign a contract and subsequently make the official announcement of a new SPP Price for the product in question, the price paid to the SPO must be adjusted to the new SPP price for deliveries made beginning on the effective date.	Critical Criterion	X	X	X	X	X

#	Contents	Classification	SPO	C-SPO	BUY	INT	MAQ
6.2.9.b	b. In case the price change falls within the first six months of the contract, the buyer will have the possibility to request that the previous minimum SPP price be respected for deliveries made during that period.	Critical Criterion	X	X	X	X	X
6.3	PRE-FINANCING						
6.3.1	If so required by the Small Producers' Organization, a Buyer or Intermediary must facilitate pre-financing of the contract, directly or through third parties, corresponding to at least 60% of the total.	Minimum Criterion			X	X	
6.4	TIMELY PAYMENT						
6.4.1	The total cost of the products purchased from a Small Producers' Organization must be paid, thereby acquiring the responsibility for the product. In the case of exceptions to this criterion, it is necessary for a formal mutual agreement to be established in the contract.	Minimum Criterion		X	X	X	
6.5	QUALITY						
6.5.1	In the case of disputes concerning the quality of the product purchased, the parties undertake the obligation to seek a conciliatory mediation agreement, as stipulated in the contract.	Minimum Criterion	X	X	X	X	
6.5.2	In the case of failure to agree on a mediator, <i>SPP Global</i> will act as such or will assign one. Any costs for this mediation will be paid according to what has been established in the contract with regard to payment of expenses resulting from disputes.	Minimum Criterion	X	X	X	X	
6.6	ORIGIN CRITERIA						
6.6.1	Finished products consisting of a single ingredient are made exclusively with raw material from certified Small Producers' Organizations, and acquired under the criteria established for SPP.	Minimum Criterion	X	X	X	X	
6.6.2	Finished products composed of various fundamentally different ingredients, must comply with the following:	Continuous Improvement Criterion	X	X	X	X	
6.6.2.a	Finished products composed of several ingredients or fundamentally different materials must use all SPP certified ingredients, respecting the minimum percentage established (Criteria 6.6.3).	Continuous Improvement Criterion	X	X	X	X	
6.6.2.b	If the product respects the minimum amount of SPP certified ingredients but the other components of said product are not available, a request can be made so that SPP Global issues a permit to waive the obligation to purchase these components from SPP certified Small Producers' Organizations. <i>Note: A given ingredient is considered available if there is information regarding its existence if it meets the necessary requirements and if it is acquirable within a reasonable deadline and at a not disproportionate cost.</i>	Continuous Improvement Criterion	X	X	X	X	
6.6.3	Finished products, composed of several ingredients or fundamentally different materials, must respect the following percentages, according to the composition of the product:	Minimum Criterion	X	X	X	X	

#	Contents	Classification	SPO	C-SPO	BUY	INT	MAQ
6.6.3.a	a.As a general rule, at least 50% of the total weight of the product - excluding the weight of eventual liquid vehicles and including the Main Ingredient - must be certified by the Small Producers' Symbol. In all cases, the consumer must be clearly informed which ingredients and what percentage of the product have a SPP Certification.	Minimum Criterion	X	X	X	X	
6.6.3.b	b.In the particular case in which more than 50% of the total weight of the product is made up of ingredients proper to Northern producers (See List of Authorized Products for Northern Producer Countries) -excluding the weight of eventual liquid vehicles and including the Main Ingredient -, the following criteria must be met:	Minimum Criterion	X	X	X	X	
6.6.3.b.i	i.At least 25% of the ingredients are certified by SPP.	Minimum Criterion	X	X	X	X	
6.6.3.b.ii	ii.At least 25% of the ingredients (in addition to the SPP certified ingredients) are from traditional local production of the country or region of the destination market, are supported by a verification system approved by SPP Global (See "List of Verification Systems Approved by SPP Global") confirming these are organizations from small local producers and are authorized by SPP Global in the "List of authorized products for Northern Producer Countries".	Minimum Criterion	X	X	X	X	
6.6.3.c	In the case of products whose Main Ingredient represents less than half of the total weight of the finished product, an initial minimum of 25% is established and a two-year deadline is granted for the product to meet the criterion establishing a minimum of 50%.	Minimum Criterion	X	X	X	X	
6.6.4	The certificate of an SPP product or ingredient does not have an expiration date, so it can be used as such, regardless of the status of the certificate of the Small Producers Organization after the acquisition (For specification on the guidelines about the usage of the SPP Symbol please consult SPP's Regulations on Graphics).	Informative	X	X	X	X	
6.6.5	To sell products composed of several ingredients as SPP products, all ingredients must have an organic certification, or a similar equivalent, which is recognized by SPP Global and by the market of the country where the final products will ultimately be sold	Critical Criterion	X	X	X		
6.7	LABELLING						
6.7.1	If SPP is applied on an adhesive label, the label is to be authorized by SPP Global as provided in the SPP Regulations on Graphics	Minimum Criterion	X	X	X	X	X

#	Contents	Clasification	SPO	C-SPO	BUY	INT	MAQ
6.7.2	In the case of processed products composed of several ingredients made with recipes that are susceptible to constant changes, the labels or packaging of those products that comply with the applied ingredient rules must be presented for authorisation. Additionally, a quarterly report on specific labels must be submitted to SPP Global and the Certification Entity involved, in which it is indicated which ingredients have SPP certification, as regulated in the current applicable regulations.	Minimum Criterion	X	X	X	X	X
