COFFEE CATALOG

VERSION 1.0

WELCOME TO OUR 2021-2022 CATALOG!

At SPP we believe coffee should be produced wholeheartedly and holding top-quality standards. We, small producers, have been a role model in terms of coffee sustainability for many years; showing that we make great contributions to a healthier planet and a better future for all.

Today we're excited to present to you our catalog of fine coffees, which we bring to consumers' hands in a direct and transparent way by working together with committed companies and brands in Latin America, North America, Canada and Europe.

Enjoy this virtual tour through our farming land and feel free to take a look at our websites and social networks, we'd love to stay in touch!
