POLICY REPORT TO THE JUNE 2024 GENERAL ASSEMBLY

At the general meeting a year ago, at the end of June 2023, we discussed the prospects for the following months, such as participation in Natexpo or a modest presence at the Salon du Chocolat. We also mentioned our hope of seeing some companies' registration with SPP come to fruition.

One year later, it is clear that, even if planned actions have been carried out, we have not truly succeeded in that regard. We remain in a situation of marginality that can probably only increase.

The chaotic situation of SPP Global does not allow, at this stage, to have any clear prospects. What can we expect for the future of our association?
